

## REMARKS

This is in response to the Office Action mailed October 5, 2004. In that Office Action, Claims 1-37 are pending in the application. Pursuant to the Office Action, the Examiner issued a restriction requirement requesting election of either of two groups of claims. The Group I claims comprise Claims 1-4, 16 and 20-27, drawn to polarity reversal driving. Group II comprises Claims 5-15 and 28-35 drawn to graphics memory control. Claims 17-19, which were not included by the Examiner in either Group I or Group II, were objected to due to their being multiple dependent claims which were dependent on a multiple dependent claim.

In response, Applicants elect to prosecute in the present application the Group I claims, namely, Claims 1-4, 16 and 20-27. In addition, Applicants have amended Claims 16-19 so that each is now dependent from Claim 1. As Claim 1 is among the claims elected for prosecution, Applicants respectfully request that Claims 16-19 be included with the other Group I claims.

In addition, new Claims 39-65, each of which is dependent from one of Claims 1-4 or 20-24, have been added.

Respectfully submitted,
